Kelly Brothers New Economy Catalog

SPRING - 1931

In presenting to our friends this, our New Economy Catalog, we wish to say that on account of the temporary economic conditions that exist throughout the country this year, we are conserving and keeping down the expense wherever we can. We are not issuing an expensive colored catalog and are also cutting our selling and overhead expense to about one-third the usual amount. This we do to give our customers the benefit of greatly reduced prices.

There is no reduction, however, in the quality of Kelly Brothers' fruit trees. We have the finest stock of fruit trees this season that we have ever grown.

We extend an invitation to all fruit growers who contemplate planting this season to come to Dansville and look over our stock of fruit trees. Visit our storages and see the way we sort and grade the trees, and the way we pack each grade and variety in separate bins, packing them securely with moist excelsior. Many of our customers come here each season and select their own trees while the varieties are complete. We pack these trees away in separate bins with their tags attached ready for shipment when requested.

We also advise any one who contemplates planting more trees to do so this season. The United States Congress has passed a law prohibiting all foreign fruit tree seedlings from being imported to the United States with the exception of Mahaleb Cherry and Plum seedlings. This law is already in effect and the two above mentioned varieties of seedlings will probably be prohibited next season.

As a great many Nurserymen have discontinued growing fruit trees entirely and are now growing Ornamental trees, Shrubs, and Evergreens instead, we believe there will be a great shortage of Apple, Pear and Mazzard Cherry trees in another year or two.

Kelly Brothers, however, are going to continue to specialize in growing fruit trees as they have done for the past 51 years, and to supply our many satisfied customers and all others whom they have recommended in the past and will recom-

mend in the future. This co-operation on the part of our satisfied customers who have dealt with us for many years we consider one of our best assets.

We have always maintained that our interests are mutual with the fruit grower and that a **mutual interest** **agreement** **is** **made** upon delivery of the trees. Our future success depends upon the success the fruit grower has with the trees from our firm. We are hereby taking the liberty of furnishing a few names of our customers so that any prospective customer who is not acquainted with Kelly Brothers' method of doing business may write any of these gentlemen for information concerning us. We could include thousands of other names but space will not permit in this our New Economy Catalog.

George A. Drew, Westford, Mass.

Fred C. Sturtevant, Ass't Commissioner of Agriculture, Augusta, Me.

The above explanatory article was written by our Mr. James A. Kelly who is the Pioneer Nurseryman and originator of Kelly Brothers Nurseries for the past 51 years, and is still active and can and does handle or direct any part of the firm's business that is necessary, for which I feel very grateful to our Heavenly Father from whom all blessings flow.

Signed—James A. Kelly

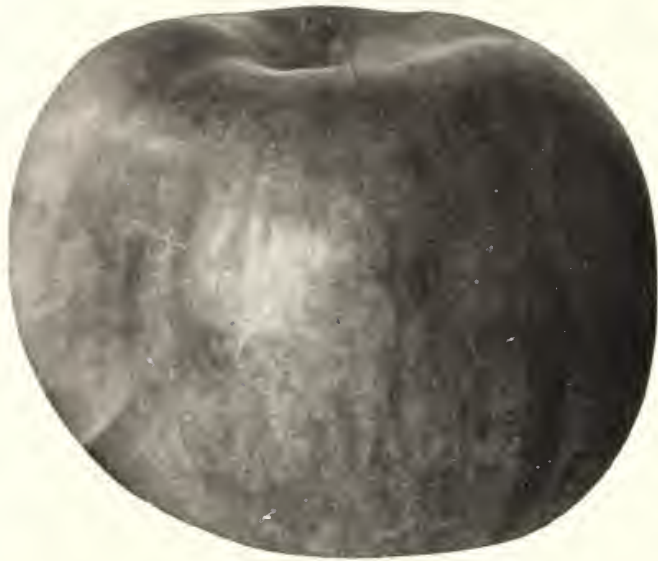

A VIEW OF ONE OF KELLY'S STORAGES

Even though we say it ourselves this is one of the best built storage cellars in the United States. Good thick brick walls with abundant air spaces between keep the frost out. Ample air ventilators at the top and bottom permit us to maintain an even temperature and keep the air sufficiently moist to preserve the trees in perfect condition.

Roots are carefully packed with moist excelsior to preserve their vitality. Pains-taking care in growing, thorough and scientific handling and packing insure the arrival of our trees to the customer in perfect condition.

What Others Think of Kelly's Trees

We print below a few of the hundreds of unsolicited testimonials we receive every year. Economy does not permit us to print more. We will be glad to furnish you with the names of our customers in your locality. You can find out from them how well Kelly's trees do in your locality.

Golden, Colo., Nov. 25, 1930.

Kelly Bros. Nurseries, Dansville, N. Y.

Dear Sirs:—For the past fifteen years all my fruit trees have been purchased from your firm. I have always received very fine, sturdy, well rooted trees. They were carefully handled and well packed. All of these trees have borne fruit true to name.

After attending the National Grange Convention at Rochester, I visited your nurseries at Dansville. I was well pleased with your trees and the way you handle and care for them. I can conscientiously recommend your firm to fruit growers interested in planting in the spring of 1931. I feel confident that they will receive good, well grown, hardy stock and that their trees can be depended upon to bear fruit absolutely true to name.

Yours truly, John Morris, Master Colorado State Grange.

Waynesburg, Pa., July 2, 1930.

Kelly Bros. Nurseries, Dansville, N. Y.

Gentlemen:—Just a word about our orchard purchased from you this spring. Out of the ten hundred seventy (1070) trees only one, an Elberta Peach, failed to grow. All are growing remarkably. Mr. Ruef of the Pennsylvania State College complimented the stock very highly. Thanking you for your very kind attention to this selection, I am,

Sincerely,

Paul R. Stewart, Pres. Waynesburg College.

Kelly's Trees Are the Best to be Had at Any Price

Our nurseries are located in one of the most favorable spots to be found anywhere in the country. Our soil and climatic conditions are so ideal that we are able to produce trees of the utmost vigor and vitality. Nowhere can trees be grown with cleaner, straighter bodies—better balanced tops—or more abundant fibrous roots.

Kelly's Inspected Apple Trees

After another careful inspection, Dr. J. K. Shaw of the Mass. State Agricultural Station has again issued a statement that to the best of his knowledge all the salable Apple trees in Kelly Bros. Nurseries are true to name. Our Apple trees are grown on the finest whole root French Seedlings under ideal soil and climatic conditions. As a result they have nice clean, straight bodies, an abundance of fibrous roots and well branched tops.

Kelly's Certified Apple Trees

In addition to inspecting for trueness to name all of Kelly Brothers Apple trees, Dr. Shaw has attached to some trees of each of the leading commercial varieties the Official Certification Tag of the Mass. Fruit Growers' Association. This tag bears on its face the name of the variety of fruit the tree is certified to bear and on the reverse side the official stamp of the Mass. Fruit Growers' Association. Owing to the cost of attaching Certification Tags we are obliged to make a slight additional charge for trees with Certification Tags attached.

We can furnish the following varieties with Official Certification Tags attached:

Red Spy	Baldwin	Delicious	McIntosh	Red Gravenstein	Stayman's Winesap
Early McIntosh	Cortland	Fameuse	Northern Spy	R. I. Greening	Wealthy

Kelly Brothers Have Years of Experience

Nursery work is highly specialized work. It requires men of expert knowledge and thorough experience. During our fifty-one years in business we have built up an organization of thoroughly competent men—men who can and do produce trees of unsurpassed quality. We gladly welcome comparison. Come and see our trees and judge for yourself.

A Visit to Our Nurseries Will Convince You

We extend you a cordial invitation to visit our Nurseries at Danville, N. Y. An inspection of our trees will convince you that we really have the finest trees grown anywhere. If you like you can select your own trees and we will set them aside until you are ready to plant. You will be cordially welcomed and your visit will put you under no obligation to purchase from us.

Cherry Trees

We are, as you probably know, one of the largest producers of Cherry trees in the United States. Fifty-one years' experience—ideal soil and climatic conditions—an abundance of good fertilizer—and the finest whole root French Seedlings all combine to produce in Kelly's Cherry trees the utmost in vigor and vitality. We are justly proud of our Cherry trees and gladly welcome comparison.

Our Cash With Order Plan Saves You Money

Only those who have been connected with a business where thousands of customers are served yearly can realize the enormous expense of opening credit accounts and making collections. By our direct cash with order plan we eliminate this expense and pass this saving on to our customers in the form of reduced prices. You get more for your money when you buy from Kelly Brothers.

Peach Trees

We have always been large growers of Peach trees and careful supervision has kept our Peach blocks free from any possible mixture of varieties. Indications are that Peach trees will be very scarce this year and we advise our customers to buy early.

Nut Trees

Black Walnut—Rapid grower. Rich fine flavored nuts. 4 to 5 ft., 75c each.
Butternut—Large longish nuts. 4 to 5 ft., 75c each.
English Walnut—Large crops of thin shelled delicious nuts. 3 to 4 ft., \$1.00 each.

Kelly's Trees Best Ever Purchased

Kelly Brothers, Danville, N. Y. West Coxsack, N. Y., Sept. 1, 1929.
Gentlemen:—Beg to say, I have been in the fruit game for forty years and the best trees I have purchased from any nursery during this time I had from you last Spring.
They are standing the drought splendidly on account of their splendid root system. I haven't lost one of the number I bought while my neighbors are losing a great share of their last Spring's setting.
Gentlemen, this as you know is unsolicited, but I feel we should show our appreciation of a good source deal in these days, and help others buy good trees at a first class nursery.
Very truly yours, P. V. B. VAN SLYKE
Member Executive Comm., New York State Agricultural Society.

 Butternut—Large longish nuts. 4 to 5 ft., 75c each.
 English Walnut—Large crops of thin shelled delicious nuts. 3 to 4 ft., \$1.00 each.

Kelly's Trees Best Ever Purchased

Kelly Brothers, Dansville, N. Y.

West Coxsackie, N. Y., Sept. 1, 1929.

Gentlemen:—Beg to say, I have been in the fruit game for forty years and the best trees I have purchased from any nursery during this time I had from you last Spring.

They are standing the drought splendidly on account of their splendid root system. I haven't lost one of the number I bought while my neighbors are losing a great share of their last Spring's setting.

Gentlemen, this as you know is unsolicited, but I feel we should show our appreciation of a good square deal in these days, and help others buy good trees at a first class nursery.

Very truly yours, P. V. B. VAN SLYKE,
 Member Executive Comm., New York State Agricultural Society.

Syringa Lemoine—Creamy white fragrant flowers in June.

Weigelia Candida—Pure white flowers from June to fall.

Weigelia Eva Rathke—Deep scarlet blossoms in June and intermittently all summer.

Weigelia Rosea—Dwarf. Green leaves broadly margined with creamy white. Pink flowers.

Hedge of Barberry Thunbergii

Ornamental Hedges

Why use unsightly and expensive wire and wooden fences when the same ends can be attained with less costly and vastly more ornamental living hedges? We offer the two most popular and universal shrubs for this purpose.

Barberry Thunbergii—Best for informal hedge 2 to 3 ft. high. Plant 2 feet apart. Strong bushes, 2 to 3 ft. high, 30c each, \$2.50 per 10, \$20.00 per 100.

California Privet—Best trimmed hedge 3 to 5 ft. high. Set in single row 10 inches apart. If broad hedge is desired plant in double rows—rows 1 foot apart and bushes 1 foot apart in each row, but staggered so as to come 6 inches apart in hedge. Extra strong bushes, 2 to 3 ft. high, \$1.00 per 10, \$5.00 per 100, \$45.00 per 1000.

Evergreens

Evergreens retain their foliage all year, and after deciduous shrubs and trees have dropped their leaves in the Fall give your home surroundings a touch of warmth and coziness not obtained with any other class of ornamentals. This Spring we offer the two leading and most popular varieties.

American Arbor Vitae—Tall pyramidal shaped. Flat lacy foliage. Fine for hedges, windbreaks and screens. Specimens balled and burlapped, 2 to 3 ft. high, \$1.00 each, \$9.00 per 10, \$75.00 per 100; 3 to 4 ft. high, \$1.50 each, \$12.50 per 10, \$100.00 per 100.

Norway Spruce—Lofty tree of pyramidal habit. Short spiny needles completely encircling branches. Universally used for Christmas trees. Specimens balled and burlapped, 18 to 24 in. high, \$1.00 each, \$9.00 per 10, \$75.00 per 100; 2 to 3 ft. high, \$1.25 each, \$11.50 per 10, \$100.00 per 100.

Shade and Ornamental Trees

We offer only such kinds as possess distinctive decorative qualities, and are suitable for lawn, street and park planting.

American Elm—Tall vase shaped trees. Fine for street planting. 6 to 8 ft. \$1.00 each, \$8.00 per 10.

Ash-Leaved Maple (Box Elder)—Very hardy. Rapid grower. 6 to 8 ft. \$1.00 each.

Bechtel's Flowering Crab—Lawn tree. Medium grower. Double rose shaped pink blossoms. 2 to 3 ft. 50c each, \$4.00 per 10; 3 to 4 ft., 70c each, \$6.00 per 10.

Norway Maple—Excellent street and shade tree. Strong, fast grower. 6 to 8 ft., \$1.00 each, \$9.00 per 10; 8 to 10 ft., \$1.50 each, \$12.50 per 10.

Carolina Poplar—Hardy, fast growing tree with large leaves. 6 to 8 ft., 30c each, \$2.50 per 10, \$15.00 per 100; 8 to 10 ft., 40c each, \$3.50 per 10, \$20.00 per 100; 10 to 12 ft., 50c each, \$4.00 per 10, \$30.00 per 100.

Catalpa Bungeii (Umbrella Tree)—Large, heart-shaped leaves making symmetrical um-

brella shaped top. Two year heads. 6 to 8 ft., \$1.00 each.

Cut-Leaved Weeping Birch—Tall, slender, weeping tree. Silvery white bark. 5 to 6 ft., \$1.50 each.

Lombardy Poplar—Tall, fast growing spire-like tree. Fine for marking lanes or boundaries. 6 to 8 ft., 30c each, \$2.50 per 10, \$20.00 per 100; 8 to 10 ft., 40c each, \$3.50 per 10, \$30.00 per 100; 10 to 12 ft., 60c each, \$5.00 per 10, \$40.00 per 100.

Mountain Ash—Handsome small tree with clusters of bright red berries. 5 to 6 ft., \$1.25 each.

Russian Mulberry—Low growing, hardy lawn tree with medium size black berries. 5 to 6 ft., 65c each, \$5.50 per 10.

Silver-Leaved Maple—Large spreading tree. Foliage silvery underneath. 8 to 10 ft., 75c each.

Evergreen Ready for Shipment

TERMS

Cash with order except on large orders when satisfactory reference must be given and the order accompanied by one-fourth cash, and shipment will be made C. O. D. the balance.

For the benefit of customers who order early but who do not care to spare all the money when order is sent, we will accept early orders accompanied by one-third cash and reserve stock, balance of the amount to be sent us when stock is ordered shipped.

We box and pack all orders without charge.

We allow hundred rates on lots of fifty or more trees, providing your order does not call for less than ten of any one variety.

165 Hartley St., Portland, Me. June 6, 1930.
Kelly Brothers, Dansville, N. Y.

Gentlemen:

I wish to congratulate you, as well as myself for the fine and vigorous trees you sent. Two hundred and two have started in good shape. The first one I set, a Delicious, has a growth six inches long. They make a fine appearance already. I plan to set more next year.

Sincerely, Alfred T. Ware

Frederick St., Peekskill, N. Y. Nov. 10, 1930.
Kelly Brothers, Dansville, N. Y.

Dear Sirs:

I am an old customer of yours. I bought trees of you a few years ago, and they are the best trees I ever saw. They are bearing fine and are true to name, and I certainly will recommend your trees to my friends.

Very truly yours, William O. Underwood, Jr.

Ornamental Vines

Ampelopsis Veitchii (Boston Ivy)—Bright green foliage. Clings tightly to smoothest surface. 60c each.

Clematis Jackmanni—Very large, single, purple blossoms. 50c each.

Clematis Paniculata—Fragrant, pure white blossoms in Sept. 50c each.

Dutchman's Pipe (Birthwort)—Large, heart-shaped leaves and quaint pipe-shaped green flowers. 50c each.

Hall's Japan Honeysuckle—White flowers from July until winter. 50c each.

Purple Wistaria—Pale lilac flowers in abundance in May. 60c each.

White Wistaria—Racemes of beautiful white flowers in May. 60c each.

Our New Economy Plan Saves You Money

We believe it is in keeping with the present temporary economic conditions of the country to take every step to give our customers the greatest value for their money possible. With this in mind we have decided this year not to publish a large and rather expensive colored catalog but to make this abbreviated economy catalog serve the purpose instead. We also intend to spend considerably less on advertising. This large saving we are passing on to our customers in the form of greatly reduced prices. The quality of our trees, however, will always be maintained.

Norway Maple

Choice Roses

We offer a selection of the choicest varieties. The varieties marked thus (*) were chosen by a referendum vote of the American Rose Society as the most desirable and popular kinds.

Hybrid Tea or Everblooming Monthly Roses

This class of Roses is commonly known as Everblooming or Monthly Roses on account of their long blooming season, beginning in June and continuing until frost. They are by far the most desirable and popular varieties. Require protection over winter in the extreme North. This protection consists of simply mounding up each bush with a mound of earth 8 or 10 inches high. Should be planted from 1½ to 2 feet apart.

Strong, 2 Year Bushes, 50c each.

- *Columbia—Glowing pink. Strong grower. Very free flowering. Almost thornless.
- *Gruss an Teplitz—Scarlet shading to crimson. Very fragrant. Profuse bloomer.
- Killarney Pink—Flesh pink shaded with white and suffused pale pink.
- Killarney White—Pure white. Long pointed buds. Very fragrant.
- Lady Ashton—Deep carmine pink shading to yellow at base of petals.
- La France—Fine peach-blossom pink. Large flowers of unusual fragrance.
- *Los Angeles—Flame pink shaded with gold at base of petals. Flowers large.
- *Mme. Butterfly—Bright pink, apricot and gold. Large, perfect bloomer.
- *Ophelia—Delicate salmon pink, shaded with rose. Very free bloomer.
- Premier—Rich dark pink. Beautifully formed fragrant flowers.
- *Pink Radiance—Bright carmine rose with opal and coppery reflections.
- *Red Radiance—Deep red. Very fragrant. Vigorous grower. Unusually hardy.
- Sunburst—Light sulphur yellow. Strong, spreading grower.
- *Souvenir Claudius Pernet—Beautiful sunflower yellow. Vigorous, erect grower.

Hybrid Perpetual Roses

This class of Roses is extremely hardy, requiring no protection, blooming tremendously in June and sometimes sparingly until Autumn. Should be planted 2 to 2½ feet apart.

Strong, 2 Year Bushes, 40c each.

- American Beauty—Deep rich rose. Large. Very double. Fragrant.
- *Frau Karl Druschki (Snow Queen)—Pure snow-white. A continuous bloomer.
- General Jacqueminot—Deep brilliant crimson. Large flowers and petals.

Baby Rambler Roses

These are bush form roses with double blossoms in compact clusters of the type produced by the well known Ramblers.

Strong, 2 Year Bushes, 40c each.

- Crimson Baby Rambler—Small double crimson blossoms in large clusters.
- Pink Baby Rambler—Clusters of showy double pink blossoms.
- White Baby Rambler—Pure double white blooms in clusters.

Hardy Climbing Roses

Strong, 2 Year Bushes, 40c each.

- Crimson Rambler—Glowing crimson blossoms in large clusters. Very hardy.
- Climbing American Beauty—Rosy crimson flowers on single stems. Fragrant.
- Pink Dorothy Perkins—Large clusters of double shell pink blossoms.
- White Dorothy Perkins—Clusters of pure white blossoms.
- Yellow Rambler—Clusters of light canary-yellow flowers.

Hardy Phlox

Strong, 2 Year, Field Grown Plants, 25c each, \$2.25 per 10.

- LaVague—Immense conical heads borne in great profusion. Warm mauve with emphatic carmine eye, giving a general effect of lilac.
- Thor—Beautiful shade of deep salmon-pink overlaid with a scarlet glow, aniline red eye.
- R. P. Struthers—Rich flame color, will not streak or fade. One of the best.
- Mrs. Jenkins—Pure white, immense panicles, free bloomer, large individual flowers.

Peonies

Strong Clumps, 50c each, \$4.50 per 10.

- Dorchester—Salmon pink. Double. Dwarf, compact grower. Flowers very full. Late.
- Eudulis Superba—Soft pink. Double. Strong upright grower. Fragrant. Early.
- Festiva Maxima—Pure white, flecked with carmine. Large. Free flowering. Fragrant. Early.
- Louis Van Houtte—Dark crimson. Semi-double. Fragrant. Late.
- Queen Victoria—Creamy white, carmine spots. Free blooming. Fragrant. Mid-season.
- Rubra Triumphans—Dark crimson. Large. Semi-double. Free flowering. Fragrant. Early.
